

PROMOTIONAL ITEMS

3D PRINTING FOR MARKETING & PROMOTION

Create distinguished promotional gifts that set your company apart from the competition. Create a lasting memory with remarkable trophies, promotional products, as well as corporate and customer gifts.

- Giveaways
- Sales tools/models
- Trophies
- Corporate Gifts

Complex Shapes and Designs

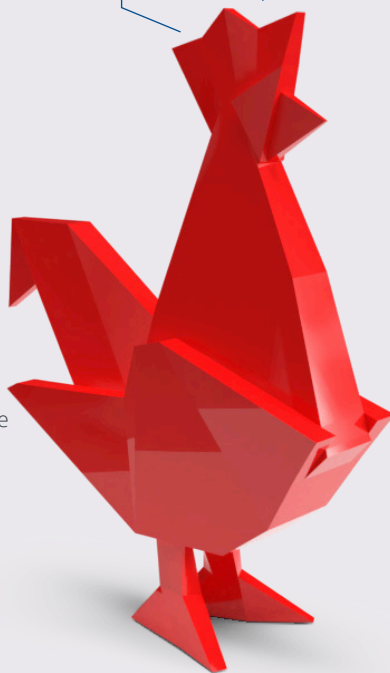

Bring any concept to life without the limitations of molding. 3D printing allows for lattices, organic forms, or any creation to be produced at scale.

Combine Digital Manufacturing Technologies

Make the most of both 3D printing and Laser Cutting to lower costs and create one-of-a-kind trophies and gifts.

Quality Finishing

High definition colors and smooth surfaces give your promotional items the perfect look and feel.

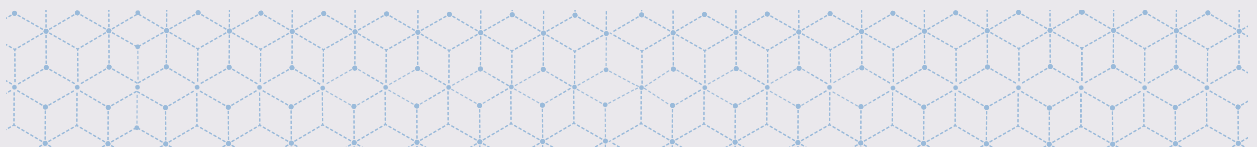

Unique & Branded Designs

Completely customize your promotional giveaways and trophies with unique/ branded designs.

Mass-Customization

Personalize your giveaways and corporate gifts without added costs. Give your team and clients a unique gift, just for them.

Properties:

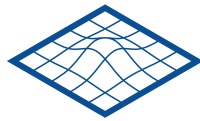

30+ Materials

Choose the right material for your project with metal, plastic and resin 3D printing materials available.

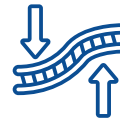

Vibrant Colors

3D printed parts can be dyed or painted in any color to match the design concept exactly.

Surface Finish

With professional finishing options, 3D printed items have the look and feel of injection molding.

Flexible

Ultraflexible TPU give your promotional items a softer touch with great resilience.

Strength & Durability

From rigid Nylon PA12 to stainless steel, 3D printing materials offer reliable resistance to impact and durability.

UV Resistance

For window displays, specialized finishing options maintain true colors.

The 3D Printing Advantage:

Unique items, to small series, to mass-production

For a unique trophy, a small batch of sales models, or even 1000s of giveaways, 3D printing is the most scalable solution.

Fastest lead-time

Short-notice events, Product release dates, tight deadlines, and last-minute changes are no longer an issue.

Flexible, on-demand manufacturing

Forget about inventory or minimum orders, produce only what you need, when you need it, at speeds traditional methods can't compete with.

Cost per part

For unique items and small series, the cost of 3D printing trophies and giveaways can't be beat.
